SUMMARY

Innovative Process Analyst with 4 years of experience optimizing operations. Reduced process deviations by 30%, enhanced workflow efficiency by 28%, and cut manual hours by 24% using SQL and Tableau.

EXPERIENCE

Process Analyst

Aurthur J Gallagher

March 2024 - December 2025, Bangalore, India

- Conducted trend analysis on 24 months of submitted claim data using Power BI and SQL Server, identifying process bottlenecks and informing workflow enhancements that improved monthly throughput by 33% across 5 business units.
- Managed quarterly employee retention analysis using SAP SuccessFactors and Power BI for 5 business units over 2 years, identifying key attrition drivers and implementing targeted action plans that improved retention by 18% and reduced hiring needs by 22%.
- Analyzed 2 years of incident reports using Power BI and SQL Server to detect spoliation risks, implementing monthly preventative protocols that reduced potential data handling violations by 41% across 5 business units.
- Authored and prioritized over 70 user stories across 12 agile sprints using Jira within a 9-month digital transformation project, enabling cross-functional teams to deliver process automation enhancements that improved transaction processing speeds by 28% for 5 business units.

Process Analyst

Wipro

March 2023 - March 2024, Bangalore, India

- Analyzed workforce planning data for 10+ departments over a 12-month period using SQL and Tableau, enabling data-driven allocation decisions that increased resource utilization rates by 19% and supported achievement of quarterly headcount KPIs.
- Evaluated analytical trends in process performance across 10 departments using SQL and Tableau for 12 months, identifying variations that informed monthly optimization initiatives and led to a 17% decrease in process cycle times.
- Implemented HR Analytics dashboards utilizing SQL and Tableau over a 9-month period to track workforce metrics for 10 departments, empowering actionable insights that boosted quarterly HR KPI attainment by 21% across all business units.
- Monitored SLAs for 10 departments using Tableau and SQL over 12 months, ensuring compliance rates improved by 23% and reducing missed service commitments by 14% through continuous performance measurement and targeted process interventions.

Process Associate

Wipro

November 2021 - March 2023, Bangalore, India

- Authored process documentation for five multi-departmental initiatives over a four-month period, leveraging Confluence and SharePoint to ensure comprehensive recordkeeping and accelerate audit closure by 30% compared to prior cycles.
- Developed and integrated process diagrams using Visio for six cross-functional workflows over a six-month period, reducing onboarding time by 25% and elevating procedural clarity as tracked by quarterly compliance KPIs.
- Conducted data analysis using SQL and Excel on 12 monthly process performance reports over a six-month period, identifying workflow bottlenecks and driving a 20% decrease in error rates as validated by departmental KPIs.
- Facilitated stakeholder management for bi-weekly process review sessions with 10+ internal teams over six months using Jira and MS Teams, accelerating resolution of process deviations by 40% and advancing alignment on SLA metrics.
