## PROFESSIONAL SUMMARY

Results-driven **Technical Project Manager** with **3+** years of experience aligning cross-functional teams, defining project scope, and implementing IT solutions. Adept at utilizing SQL and Tableau for data extraction and business analysis to simplify complex operational challenges. Proven ability to negotiate technical requirements, guarantee strict SLA compliance, and consistently deliver technical data frameworks on schedule.

## TECHNICAL SKILLS

|                                  |                                                                                           |
|----------------------------------|-------------------------------------------------------------------------------------------|
| <b>Project Management</b>        | Project Scope Definition, Cross-Functional Alignment, Risk Mitigation, Delivery Timelines |
| <b>Business Analysis</b>         | Data Extraction, Data Cleaning & Mining, Operational Troubleshooting, Success Metrics     |
| <b>Software &amp; Data Tools</b> | SQL, Tableau, Power BI, Advanced Excel, Data Aggregations, Cloud AI Environments          |
| <b>Business Strategy</b>         | Technical Negotiations, Stakeholder Communication, SLA Compliance, Tech Collaboration     |
| <b>AI &amp; Automation</b>       | Claude Workflows, Prompt Engineering, Agentic Capabilities, Efficiency Enhancements       |

## PROFESSIONAL EXPERIENCE

**Business Process Analyst (Technical Project Focus)** Mar 2024 – Nov 2024

Arthur J. Gallagher / Bengaluru, India

- **Coordinated** with cross-functional engineering and product teams to design robust IT solutions, effectively aligning technical requirements and project scope across **5** business units.
- **Developed** a deep understanding of operational challenges, utilizing advanced SQL for data extraction and cleaning to trace project logic and drive a **35%** uplift in overall business throughput.
- **Simplified** complex implementation issues for key users by delivering clear, concise information through Tableau and Power BI dashboards, reducing manual oversight and reporting by **40%**.
- **Negotiated** data logging protocols with technical units to prioritize deliverables, successfully mitigating implementation risks to reduce critical data logging violations by **41%**.

**Process Analyst (Senior)** Mar 2023 – Mar 2024

Wipro / Bengaluru, India

- **Managed** diverse multi-functional teams to deliver structured data-driven solutions, acting as the primary liaison between business needs and technical execution to lower overall project delivery cycle times by **17%**.
- **Collaborated** closely with operational stakeholders and engineering groups to gather reporting requirements, utilizing data mining methodologies to boost organizational KPI attainment by **21%**.
- **Designed** operational workflow frameworks that improved consistent SLA delivery compliance by **23%**, continuously simplifying technical documentation for varied cross-functional audiences.
- **Extracted** and cleaned massive datasets using targeted queries, ensuring high data quality control throughout the implementation of internal software systems in **10+** departments.

**Process Analyst** Nov 2021 – Mar 2023

Wipro / Bengaluru, India

- **Fostered** and maintained strong relationships with global operational partners to track critical success metrics, achieving **100%** on-time delivery targeting priority data scaling architecture tools.
- **Analyzed** massive informational datasets using SQL and Excel to control workflow variables, formulating data-backed business analysis that boosted process adherence by **40%**.
- **Troubleshooted** core operational workflows to proactively identify structural gaps, actively collaborating with technical engineering units to improve critical issue resolution speeds by **15%**.

## EDUCATION

**MSc Business with Business Analytics (Major: Data Analytics)** Jan 2025 – Jan 2026

Northumbria University, London London, UK

**BBA, Finance & General Management** 2018 – 2021

K L E Society's S Nijalingappa College Bengaluru, India
